THE MARKETS

Fort Worth Livestock.

Fort Worth, Texas, Jan. 11.—Receipts: Cattle 2000; calves 1200; hogs 2000. Quotations: Steers steady, tops \$5.00; cows lower, tops \$4.80; calves steady, tops \$5.50; hogs steady, tops \$8.50.

Houston Market Review.

[Special to The Bryan Eagle.]
Houston, Texas, Jan. 11.—Trade conditions are now squaring away for the new year. The money situation is easier than at the beginning of last year, and there is a spirit of progressiveness apparent in all channels, but there is enough caution in the air to prevent any bad breaks. One failure was reported last week in the Houston district. The dullness immediately following the holiday season has disappeared. Collections continue good. Business failures for the United States for the week ending January 5 were 181, against 271 for the same period in 1910 and 329 in 1909.

January 2 witnessed the arrival of the coldest weather period of three days, which South Texas has experienced in this month for a period of twenty years. All garden truck was killed and much damage suffered. Careful inspection of orange and fig orchards shows that these passed through the test of 17 degrees Fahrenheit successfully. There will be much defoliation, but this cold snap should not affect the production next fall. Another severe freeze coming within the next few days might cause heavy loss while the trees are less able to withstand the cold than they were two weeks ago, but this is not probable. The prolonged dry season also helped in keeping down damage to orchards. The freeze proved South Texas to be an orange country.

This market is about bare of poultry and all grades have advanced 50c per dozen. Turkeys are in good demand and are quoted at 15c. Now would be a good time to ship. Both fresh country eggs and cold storage stock are down 1c under last week's quotations, selling at 27c. Country butter is quoted at 14c.

The Houston Packing Company is still in the market for hogs at top market prices. Every encouragement is being offered the farmers to devote more attention to hog raising.

On the morning of January 10 the government report on the total amount of cotton ginned to January 1, 1911, was issued. It showed a total of 11,687,442 bales, as against 9,647,327 bales last year and 12,405,298 bales year before last. For Texas the total reported was 2,888,479 bales, as compared with 2,228,514 for this period last year. On this report the market advanced a few points, as it was considered rather bullish. Spots still hold steady at 15c and that is the backbone of the present market.

Kansas City Livestock.

Kansas City Stock Yards, Jan. 9.—Cattle receipts increased last week after Tuesday, and the proportion of good weight fed steers was larger, resulting in declines the last days of the week which wiped out the gains of the first two days. Butcher stuff held up better than steers, and stockers and feeders remained firm. Today the run is liberal here, 14,900, and heavy at Chicago, with lower prices on the card from all the markets. Decline note 10c on steers, steady to 10c lower on cows, steady on stockers and feeders. A large share of the stuff coming is fine to 120-day fed, and the same is making money for the feeder, as a rule, while the long fed steers are selling only a little above the others, and could have been cashed several months ago for more money than they are now bringing. Bulk of the steers sell at \$5.50@6.25, with top steers today at \$6.50, nothing of merit below \$5.25. Butcher stuff is showing more quality than any time before this winter, due to the longer feeds, and prices look pretty high, decent cows selling at \$4.00@5.25, heifers \$4.75@5.75, tops around \$6.00, bulls \$4.00@5.15. Top veals bring \$8.50, heavy calves \$6.00. Demand for stockers and feeders is strong, and prices are highest in several weeks. Buyers now get the advantage of having had the cattle put half through the winter, a considerable item on stock cattle. Stock steers sell at \$4.00@5.40, feeders \$5.00@5.70, stock cows and heifers \$3.00@4.50. Quarantine supplies have picked up a little, consisting mainly of medium class steers at \$5.30@5.75. Offerings of quarantines today 42 cars; quality better than last week, most of the steers at \$5.50@5.85, one load of the Johnson yearlings, from Chokasha, at \$6.15. Receipts from Colorado and the West have been very small in the last week.

The hog market was on the up-grade last week, and closed a quarter higher for the week. Run today is 11,000 head, extra large for Monday, and most sales were 5@10c lower. The market closed a little stronger today, and last sales were at the top, \$7.97 1/2. Three-fourths of the hogs today sold at \$7.90, not many below this figure, and dealers say the average quality is running very high. Average value of the hogs for last week was \$7.92, average same week last year \$8.50. Shippers are buying about 11 per cent of the hogs now, which is a fairly good quota for that channel, and sufficient to keep the market on a fairly keen edge.

Sheep and lambs wobbled a little last week, but finally closed 15@25c higher for the week. Run today is 15,000 head; market steady on sheep, about 10c lower on lambs. Top lambs today brought \$6.40 and yearlings made a new mark at \$5.00; wethers are worth \$4.00@4.25; ewes \$3.50@4.00. Transactions in feeding stock are of slight moment on account of lack of supplies of that class. Prices are holding up pretty good, but nervousness is ruling characteristic of the market, and the footing is not at all sure.

Guy M. Bryan returned to Houston this afternoon, after attending the meetings of the stockholders and directors of the First National bank.

CANNED EDITORIALS

Supplied to Newspapers by the Literary Bureau of the Commercial Secretaries' Association.

The commercial secretaries will undertake to organize their critics into a committee of the association. Taken as a whole, those who are criticizing the association are a fine lot of fellows, but they misunderstand the purposes of the organization and have become bewildered at its accomplishments.

This is a new field in organization work and the experiment promises to be as interesting and entertaining as it is modern, novel and useful. The convention was suggested by an East Texas editor who became a recent convert by attending one of the meetings of the association, and who now wants the gospel spread over the entire state. The details of the convention have not been worked out, but it is likely that the convention will be held in Dallas during the early part of February.

The secretaries say that, after all, their opponents are only their friends who do not understand them, and a convention of this sort is expected to absorb the desirable element of the opposition.

Those who have attended the association meetings heretofore have become convinced of the patriotic purposes of the membership and are now actively co-operating in the work.

The A. & M. college has become the Mecca of prosperity and this splendid institution finds state dollars as rare as white blackbirds. The state was recently overtaken by wisdom and established a department of public highways, but this department has so far been as free from the influence of finances as an armful of daisies.

Our mineral kingdom has been lounging on the threshold of prosperity for the past quarter of a century, and we have been waiting with a fatal patience for an earthquake to open up our mines.

Our agricultural, mining and manufacturing industries are as essential to our progress as food and water are necessary to sustain life, but the most sensitive nerve in the human anatomy is the one leading to the pocket book, and politicians have always shied at appropriations, except mileage and sundries, but the Thirtieth legislature is filled with statesmen and they will bring Texas into her own.

PATENTS TO TEXANS.

Jack A. Schler, United States patent attorney of Dallas announces the issuance of the following patents to Texans:

Kas M. Anderson, Temple, locking device for lubricating cups.

Ida M. Arago, Dallas, catamerial bandage.

Henry R. Decker, Houston, well screen.

Thomas H. Diserens, Dallas, baling press.

Robert L. Dunivant, Fort Worth, rail band.

Alfred P. Finley, Sherman, railway mail and nut-lock for fish plate bolts.

James A. Henson, Aubrey, backband buckle.

Howard R. Hughes, Houston, roller boring drill.

Samuel S. Johnson, assignor of one-half to T. Finn, Fort Worth, combined crutch and chair.

Honore G. Johnson, Corsicana, liner for steam pumps.

Carroll D. Kirk, Mortens, cultivator tooth adjuster.

William W. Liles, Mineral Wells, churn.

SELLING STREETS.

The selling or exchanging of streets or portions thereof, by the city council is a bad policy, and, moreover, it is contrary to the law as interpreted by the higher courts. The right to control vested in the city council does not carry with it the right to sell, transfer or exchange. Today the Martin public suffers inconvenience and the looks of the city are disgraced in a number of instances as a result of the council in former years "swapping" this street for that, selling portions of streets, leasing same or permitting parties to close them up or trespass upon them. We repeat that the streets and alleys are for the use and convenience of the general public as well as the abutting property owners and the latter can not forfeit the right of the general public. Neither can the city council legally do so. The practice ought to stop once and forever—Martin Democrat.

NO PRAYER MEETING TONIGHT.

On account of the revival in progress at the Presbyterian church, there will be no prayer meeting at the First Baptist church tonight. All Baptists are cordially invited to attend and assist in the services of our Presbyterian brethren.

M. E. WEAVER, Pastor.

GO RIGHT AT IT.

Friends and Neighbors in Bryan Will Show You How.

Get at the root of the trouble. Rubbing an aching back may relieve it.

But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills go right at it. Reaches the cause; relieves the pain. They cure, too, so Bryan people say. John J. Stacey, Astin street, Bryan, Texas, says: "When seventeen years of age I strained my back and from that time until I was relieved by Doan's Kidney Pills, I suffered terribly from pains in my loins. I was also bothered greatly by a kidney weakness. When I had the good fortune to hear of Doan's Kidney Pills I made up my mind to try them, and obtained a box at Emmer & Maloney's drug store. They strengthened my kidneys and relieved the pain in my back, thereby convincing me of their value."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

EL PASO HOTEL ROBBERY.

The Eagle of last Thursday contained an account of a hotel holdup which occurred in El Paso, where two masked men entered the hotel, forced the clerk and bellboy into the basement and robbed the safe and a lot of safety deposit boxes, securing five or six thousand dollars. What gives it more than usual interest to the people of Bryan is that the hotel is owned by Charles Knoblauch, a former citizen of Bryan. The hotel lost \$600, the remainder belonging to guests of the hotel.

MONEY BACK.

On That Basis E. J. Jenkins Will Sell You a Bottle of Parisian Sage Hair Grower.

Hair must have nourishment or die. If it does not have proper nourishment it will lose its vitality, grow weak, and become an easy prey to the ravages of the vicious germs of dandruff.

Parisian Sage is a hair nourisher; it is the result of sincere study and experiment by one of the world's leading scientists.

It should be used regularly as a hair dressing by everyone with healthy hair, because it never fails to prevent dandruff, falling hair, or any scalp disease.

But Parisian Sage is not only a preventive. It is a certain cure for dandruff; it stops itching of the scalp instantly; it makes hair grow thick and luxuriant. It is especially in demand by ladies, because it makes the hair beautiful, soft and fluffy. It is sold by E. J. Jenkins and druggists everywhere, under a positive guarantee to do all that is claimed for it, or money back.

Mail orders filled, charges prepaid, by the American makers, the Groux Mfg. Co., Buffalo, N. Y. The girl with Auburn hair is on every package.

HASWELL'S BOOK STORE

TO THE PUBLIC!

On account of the recent revision lowering the Interstate rates on mixed feeds, I have been enabled to get exclusive sale of the Nutriline brand of Mixed Feed, made at Crowley, La. This feed was recommended to me personally by Prof. P. S. Tilson, chemist of Houston, as being the best feed from an analytical standpoint, offered to the public, and from his personal experience, and the amount of business being done wherever this feed is introduced justified him in saying that it would meet every requirement. This feed consists of ground corn, alfalfa, rice polish and a small amount of cotton seed meal, steam cooked—with black strap molasses. This is a mixture of standard feeds raised to a higher feed value by the addition of molasses and steam cooking. It is a perfectly balanced ration and by Government Reports this Stock Food is rated at 101 as compared with oats and the Dairy Feed at 107. In feeding oats 25 per cent is not digested and Nutriline is easily digested. The price of Nutriline is \$1.50 per hundred. You can make your own calculation as to economy. Remember that every sack is guaranteed. I submit this new feed to you for a trial believing it will meet every requirement. Yours truly,
JNO. C. VICK
